## GREETINGS FROM WILSON'S NURSERY

*I'm planting a tree to teach me to gather strength from my deepest roots –*

*Andrea Koehle Jones*

With great anticipation, gratitude, and joy, we extend a warm welcome to our industry friends and partners for the 2024 growing season at Wilson's Nursery.

2023 marked another year in a series of challenging ones. These challenges provided us with yet another opportunity to learn patience and gain perspective. From the unprecedented spring flooding on the farm to the delayed arrival of critical H2A visa employees, we often found ourselves gathering around the drawing board, devising new strategies on a weekly basis to address challenges that were frequently beyond our control. Despite how finely tuned our processes may be, there always seems to be a set of variables testing our ability to navigate unprecedented challenges with agility. This is where perspective becomes crucial. What have we gained from facing these challenges? We are still here. Moreover, we are stronger for having weathered the past few years together. We have confronted these challenges head-on, adapting to new norms and growing both in terms of our business volume and internally as a cohesive team with a shared vision of our place in the Twin Cities' Green Industry.

That has been the #1 initiative for the 2nd generation of this company. While financial metrics remain important for our sustainability and success as a growing business, the personal and collective growth fostered by these challenges holds the true value. I have seen the people at Wilson's Nursery step up in ways that otherwise wouldn't have been possible without the challenging times. That is what this is all about. To truly engage with life. And to be able to do that every day and make a living doing so is a privilege none of us take for granted.

Have a conversation with any Green Industry professional, and they will tell you, "We do it because we love it. We have to love it". This love manifests differently for each of us—whether it's a passion for horticulture, leading a team through project completion, working outdoors with hands in the dirt, or simply embracing the lifestyle. As someone who came into the nursery business from outside of the field of horticulture, it took me some time to be comfortable in those conversations because I wasn't quite sure how to find my peaceful place among the myriad of responsibilities running a small but growing business. What has occurred over the last twelve years I have been part of this team, is that I have found that there is truth in the phrase,

“what doesn’t kill you makes you stronger”. We have grown stronger, more resilient, patient, adaptive, calmer, and peaceful amidst the chaos. We have learned how to carry a heavy load but remain light on our feet. We know how to smile through difficult times, and we understand the value in doing so. Because of my time working in this business and among all of you in the industry, I am a better person. And while I have now come to love the Green Industry for many of the same reasons as all of you, it is that growth that continues to drive my love for this space.

As we enter 2024 coming out of yet another unprecedented winter season, the challenges are already presenting themselves. But we are ready for them. We welcome them because we know what the result will be. We will maintain. We will persevere. And we will become better. Consider this our overarching commitment and value proposition to those of you who choose to partner with Wilson’s Nursery. Look to us for quality plant material backed by the best service in the industry. But look to us also as a guiding light in the darkness. We are here for you, eagerly anticipating the ways in which 2024 will unite us and deepen our love for what we do.

Thank you for your continued partnership and support. Without you, we would not be where we are today.

Andy Wilson  
President/Owner  
Wilson’s Nursery

## **PLANT HANDLING AND DELIVERY**

Wilson's Nursery maintains an extensive delivery vehicle fleet, allowing us to deliver orders of any size efficiently with a quick turnaround time. *As much advance notice as possible is appreciated when placing an order for delivery.* This will assure that we're able to deliver your materials on the day and time they are needed.

For larger deliveries, we have invested in what we feel is one of the best plant handling and delivery systems available. With stackable steel pallets and a 48' curtain van, we can quickly load and unload materials with a significantly reduced risk of plant damage.

## **ORDER PROCESSING**

When you place an order with us it is our goal to process it as quickly as possible and prevent you or one of your employees from having to wait for it. For us to have your order ready and waiting when you arrive, we require **a minimum of 4 business hours** from the time the order is placed, to pull and prepare the order. If an order is placed outside of regular business hours, we ask that we be allowed 4 hours after the start of our next regular business day for your order to be prepared. This will ensure that your order will be ready when you arrive. If pulling your own order, please allow adequate time to select and load your materials and complete the sale prior to the close of regular business hours.

*Please allow a minimum of 4 business hours for processing of all orders*

## **BUD & BLOOM PROGRAM**

Get on our Bud & Bloom email list to receive a weekly update on plants that are looking especially outstanding! The list is published by Wednesday each week and we reserve truck capacity for delivery to independent retail garden centers ahead of the weekend rush! Pallet-drop service is available for efficient and easy deliveries! Contractors, sign up for the Bud & Bloom email for weekly color and inspiration! To get on the email list simply text “Bud & Bloom” to (612) 990-4073 or visit [www.wilsonsnurseryinc.com](http://www.wilsonsnurseryinc.com) and register an account. Call with any questions!

## **CUSTOM GROWING**

Do you have a large project with a high volume of plant material? With Wilson's Nursery Custom Growing Program, we can grow any plant you need to spec AND you can save money with our volume discounts. We have had much success with this program working with contractors, independent garden centers, and municipalities. Call or email [orders@wilsonsnurseryinc.com](mailto:orders@wilsonsnurseryinc.com) to discuss your project.

## **NATIVES**

Throughout this catalog there are several trees, evergreens, shrubs, and perennials that are marked **NATIVE**. These items are native to Minnesota. These items are also listed under their own tab towards the back of the catalog to make referencing them easier.

## **ABOUT OUR SUPER 2**

You will notice throughout our catalog that many of our shrubs and evergreens are listed as Super 2 (S2) containers. This is the same pot we previously sold as a #3 container, but because it is less than a 3-gallon capacity – but larger than what many growers call a #2, we refer to it as a Super 2. It holds approximately 2.5 gallons. We find that this pot gives a superior root system and holds moisture better while waiting on the job to be installed. We feel this provides a superior product for our customers.

## **BRANDED CONTAINERS**

You will notice that there are several items in branded containers. These include ‘Proven Winners’ and ‘First Editions’, as well as ‘Endless Summer’ and ‘Easy Elegance’. These items are designated as PW, FE, ES and EE throughout the catalog.

*In nature, nothing is perfect and everything is perfect. Trees can be contorted, bent in weird ways, and they're still beautiful. - Alice Walker*

# ORNAMENTAL & SHADE TREES

## Container and Balled & Burlap (B/B)

### ALDER

---

**NEW Prairie Horizon Alder** **H 30-40 ft W 25-30 ft (Zone 4)**

*Alnus hirsuta 'Harbin'*

Fast growing variety with purple catkins and clusters of brown strobiles that look like Little pinecones. The most drought tolerant and hardy alder available for colder climates.

**#10 Container...139.00**

**NEW Spaeth Alder** **H 40-50 ft W 25-30 ft (Zone 4)**

*Alnus x spaethii*

Large fast growing shade tree that makes an excellent alternative when replacing Ash trees. Coppery-purple leaves in spring that transition into glossy green in summer.

**#10 Container...139.00      #20 Container...179.00 (Available Fall 2024)**

### APPLE

---

**Fireside Apple** **H 12-16 ft W 10-14 ft (Zone 4)**

*Malus 'Fireside'*

Large red selection of Haralson. Fruit is juicy, tart and firm. Stores well.

**#10 Container...129.00      #20 Container...149.00      1 ½" B/B...209.00**  
**2" B/B...330.00      2 ½" B/B...385.00**

**Haralred Apple** **H 12-16 ft W 10-14 ft (Zone 4)**

*Malus 'Haralred'*

Semi-dwarf tree bears tart, crisp dark red fruit early to mid fall. One of the most popular apples in Minnesota. Often bears fruit the first year.

**#10 Container...129.00      #20 Container...149.00      2" B/B..330.00**  
**2 ½" B/B...385.00**

**Haralson Apple** **H 12-15 ft W 10-14 ft (Zone 4)**

*Malus domestica 'Haralson'*

Crisp, juicy and keeps well when refrigerated. Tart flavor is great for cider and baking.

**#10 Container...129.00      #20 Container...149.00**

**Honeycrisp** **H 12-16 ft W 10-14 ft (Zone 4)**

*Malus 'Honeycrisp'*

Very crisp, juicy red apple with intense sweet flavor. Excellent storage life. Ripens in late September.

**#10 Container...129.00      #20 Container...149.00      1 ½" B/B...209.00**

*Please allow a minimum of 4 business hours for processing of all orders*

**KinderKrisp Apple H 12-16 ft W 10-14 ft (Zone 4)**

*Malus 'KinderKrisp'*

Exceptional flavor and texture. Smaller fruit makes this a great apple for snacking. Ripens in late August.

**#10 Container...129.00      #20 Container...149.00      1 ½" B/B...209.00**  
**2" B/B...329.00**

**Pink Lady Apple H 12-16 ft W 10-14 ft (Zone 4)**

*Malus domestica 'Scripps Pink'*

Produces apples later in the season (late October). Has a sweet, crisp, tart flavor at the first bite followed by just the right amount of sweet. Perfect for eating or cooking.

**#10 Container...129.00**

**Snow Sweet Apple H 12-16 ft W 10-14 ft (Zone 4)**

*Malus domestica 'Snowsweet'*

Crisp and juicy with a slight tart balance and rich overtones. Snow white flesh is very slow to oxidize after being cut. Ripens in mid-October.

**#10 Container...129.00      1 ½" B/B...209.00**

**Zestar Apple H 12-16 ft W 10-14 ft (Zone 4)**

*Malus 'Zestar'*

Crisp, sweet juicy fruit with delicious tart flavor. Stores better than most early apples. Ready for picking in late summer to early fall.

**#10 Container...129.00      1 ½" B/B...209.00**

**APRICOT**

**Brookcot Apricot H 8-12 ft W 8-12 ft (Zone 3)**

*Prunus 'Brookcot'*

Bright yellowish-orange fruit with a red blush. Fruit is juicy and sweet, perfect for fresh eating or canning. Semi-freestone, 1.25" diameter fruit ripens in early August.

Self-fertile variety though yield increases with cross pollination.

**#10 Container...129.00**

**Debbie's Gold Apricot H 10-15 ft W 8-10 ft (Zone 3)**

*Prunus 'Debbie's Gold'*

Yellowish fruit, 1.5" in diameter. Firm texture and a less sweet flavor make fruit better suited for canning, though is enjoyed fresh by many. Freestone fruit ripens in late July.

Self-pollinating though yield increases with cross pollination.

**#10 Container...129.00**

*Please allow a minimum of 4 business hours for processing of all orders*

## ASPEN

---

**Prairie Gold Aspen** **H 40 ft W 15 ft (Zone 4)**

*Populus tremuloides 'NE-Arb'*

Delicate leaves flutter in the wind. Golden Yellow fall color. Works well planted in a naturalized setting with other native trees. Drought and disease tolerant.

**#10 Container...149.00 (Available August 2024)      2" B/B...339.00**

**2 ½" B/B...398.00      3" B/B...428.00**

**Quaking Aspen (NATIVE)** **H 60-80 ft W 30-40 ft (Zone 4)**

*Populus tremuloides*

Smooth, chalky white mature bark. Suckering habit makes this a great choice for naturalizing. Yellow fall color.

**#10 Container...129.00      #20 Container...239.00 (Available Fall 2024)**

**#25 Container...269.00      2" B/B...339.00      2 ½" B/B...398.00**

## VINES

### CLEMATIS

Jackmanii Clematis	Purple	#1 Container...19.50
Sweet Autumn Clematis	White	#1 Container...19.50
Tangutica Clematis	Yellow	#1 Container...19.50

### HONEYSUCKLE

#### **Dromore Scarlet Honeysuckle (Zone 4)**

*Lonicera x brownii 'Dromore Scarlet'*

Bright, orange-scarlet tubular flowers from June to September. Aggressive.

#1 Container...16.75

#### **Scentsation Honeysuckle (Zone 4)**

*Lonicera periclymenum*

Very showy vine with extremely fragrant yellow flowers from mid-spring thru late summer, followed by bright red berries. Not invasive like many honeysuckle varieties.

PW #3 Container...22.50

### HOPS

#### **Cascade Hops (Zone 4)**

*Humulus lupulus 'Cascade'*

Fast growing and easily trained on a fence or trellis. Attractive cone-like flowers in late summer with a pine-like fragrance. Dies back to crown in winter.

#1 Container...14.25

#### **Nugget Hops (Zone 4)**

Vigorous lush green climber typically grown on a fence or string trellis. Produces pale, greenish-yellow cones in late summer. Mulch in winter for protection.

#1 Container...14.25

### HYDRANGEA

#### **Climbing Hydrangea (Zone 4)**

*Hydrangea anomala ssp petiolaris*

Lacy white blooms are displayed on this adaptable vine that is shade tolerant but also thrives in full sun. Make sure the supportive structure is substantial (works well growing on tree trunks or brick structures) as once established it will cover a very large area.

#2 Container...30.75

Please allow a minimum of 4 business hours for processing of all orders

## IVY

---

**Boston Ivy** (Zone 4)

*Parthenocissus tricuspidata*

Dense, clinging vine with glossy green foliage in summer and bright orange-red in fall.

#1 Container...16.75

**Engelmann Ivy** (Zone 4)

*Parthenocissus quinquefolia 'Engelmanni'*

Smaller leaves and less vigor than Boston Ivy. Clings better to masonry. Deep burgundy fall color. Small blue fruits attract birds. Xeriscape plant.

#1 Container...16.75

## TRUMPET VINE

---

**Flamenco Trumpet Vine** (Zone 4)

*Campsis radiicans 'Flamenco'*

Rich, orange-red flowers that bloom from mid to late summer. Perfect for covering arbors, fences and walls. Loved by hummingbirds!

#1 Container...13.00

## WISTERIA

---

**Summer Cascade™ Wisteria** (Zone 4)

*Wisteria macrostachya 'Betty Matthews' PPAF*

Blooms on new wood producing masses of deep blue-lavender flowers in June. Blooms fade, leaving seed pods for winter interest. More reliably hardy than other varieties.

# TERMS & CONDITIONS

## TERMS

- Net due 30 days from date of invoice to established credit line customers, with a 1.5% service charge per month on all past due accounts.
- When a balance goes beyond 30 days from date of invoice, additional credit extension will cease until other arrangements have been made with us and all purchases will be on a C.O.D. basis until overdue balance is paid in full.
- Cash on pick-up for all clients with no established credit line.
- We accept Visa and Mastercard.

## SALES TAX

The State of Minnesota requires that sales tax be paid on all purchases of products purchased in Minnesota unless the buyer provides a complete, valid tax exemption certificate at the time of sale. A tax I.D. number alone is not sufficient.

## CLAIMS

Claims, for any cause, must be made in writing within 5 days of receipt of nursery stock or claim will not be considered. We cannot assume any warranty as to productiveness after planting.

## CONDITION OF SALE

This wholesale listing is offered to licensed nurseries and landscape contractors only. Prices quoted herein are F.O.B. our wholesale yard in New Germany, Minnesota. We will not be responsible for any plants damaged by wind or handling after plants have left our yard. There will be a 20% charge for:

- 1) Restocking returned merchandise,
- 2) Special orders dug and then cancelled,
- 3) Any orders reserved and then cancelled.

## RESERVING OF STOCK

We invite you to tag and reserve your own stock. There will be a 20% deposit required to hold your stock for longer than 5 days. Material tagged and reserved for over 2 weeks will require payment in full. The deposits are non-refundable if order is cancelled.
