## **GREETINGS FROM WILSON'S NURSERY**

*He that plants trees, loves others besides himself.*

*-Thomas Fuller*

To our industry partners and friends,

Welcome to the 2026 growing season at Wilson's Nursery.

Another year is in front of us, and with it comes another opportunity to earn your business and your partnership.

This winter, our team made the most of the slower pace to refine our systems and sharpen how we operate. We understand that earning your business isn't as simple as answering the phone or opening the gates. Every touch point matters. From first contact with our inside sales team to plants landing on your jobsite or in your garden center, execution and care are required at every step. We take that responsibility seriously.

We've assembled a truly special group of professionals who show up aligned in our mission. Because of these folks, our plants are being delivered to you in the best quality we've ever produced. At the same time, we continue to develop and improve the buying experience so it's seamless, efficient, and dependable.

We work for our customers. That principle guided the first generation of this company, and it remains a central focus as we move into our sixth season of second-generation leadership. Every improvement we make is aimed at helping you succeed.

Like every year in the nursery business, challenges will arise and we will meet them enthusiastically, supporting one another and growing. It is much easier to look at a crop of plants and see improvements, but behind every beautiful plant is a group of people who have also gone through a tremendous growth experience. We are grateful to you for allowing that to happen.

Progress has been our #1 initiative over the years and we intend to make 2026 our best year yet.

As always, I would be honored to personally show you around the nursery. Please feel free to reach out to me directly at (952) 239-2263 to schedule a tour.

**PLANT HANDLING AND DELIVERY**

---

Wilson’s Nursery maintains an extensive delivery vehicle fleet, allowing us to deliver orders of any size efficiently with a quick turnaround time. *As much advance notice as possible is appreciated when placing an order for delivery.* This will ensure that we’re able to deliver your materials on the day and time they’re needed.

***Please allow a minimum of 4 business hours for processing of all orders.***

For larger deliveries, we have invested in what we feel is one of the best plant handling and delivery systems available. With stackable steel pallets and a 48' curtain van, 25' double curtain side box-truck, and a 27' Conestoga box-truck we can quickly load and unload materials with a significantly reduced risk of plant damage.

## **ORDER PROCESSING**

When you place an order with us it is our goal to process it as quickly as possible and prevent you or one of your employees from having to wait for it. For us to have your order ready and waiting when you arrive, we require ***a minimum of 4 business hours*** from the time the order is placed, to pull and prepare the order. If an order is placed outside of regular business hours, we ask that we be allowed 4 hours after the start of our next regular business day for your order to be prepared. This will ensure that your order will be ready when you arrive. If you are pulling your own order, please allow adequate time to select and load your materials and complete the sale prior to the close of regular business hours.

## **BUD & BLOOM PROGRAM**

Get on our Bud & Bloom email list to receive a weekly update on plants that are looking especially outstanding! The list is published by Wednesday each week and we reserve truck capacity for delivery to independent retail garden centers ahead of the weekend rush! Pallet-drop service is available for efficient and easy deliveries! Contractors, sign up for the Bud & Bloom email for weekly color and inspiration! To get on the email list simply text "Bud & Bloom" to (612) 990-4073 or visit [www.wilsonsnurseryinc.com](http://www.wilsonsnurseryinc.com) and register an account. Please call with any questions!

***Please allow a minimum of 4 business hours for processing of all orders.***

## **CUSTOM GROWING**

---

Do you have a large project with a high volume of plant material? With Wilson's Nursery Custom Growing Program, we can grow any plant you need to specification AND you can save money with our volume discounts. We have had much success with this program working with contractors, independent garden centers, and municipalities. Call or email [orders@wilsonsnurseryinc.com](mailto:orders@wilsonsnurseryinc.com) to discuss your project.

## **NATIVES**

---

Throughout this catalog there are several trees, evergreens, shrubs, and perennials that are marked **NATIVE**. These items are native to Minnesota. These items are also listed under their own tab towards the back of the catalog to make referencing them easier. New this year, for your convenience, we have included a separate list of regional **NATIVARS** (native cultivars) after the native in the same section.

## **ABOUT OUR SUPER 2**

---

You will notice throughout our catalog that many of our shrubs and evergreens are listed as Super 2 (S2) containers. This is the same pot we previously sold as a #3 container, but because it is less than a 3-gallon capacity – but larger than what many growers call a #2, we refer to it as a Super 2. It holds approximately 2.5 gallons. We find that this pot gives a superior root system and holds moisture better while waiting on the job to be installed. We feel this provides a superior product for our customers.

*Please allow a minimum of 4 business hours for processing of all orders.*

**BRANDED CONTAINERS**

You will find that there are several items in branded containers. These include ‘Proven Winners’ and ‘First Editions’, as well as ‘Endless Summer’ and ‘Easy Elegance’. These items are designated as PW, FE, ES and EE throughout the catalog.

2" B/B...350.00    2 ½" B/B...418.00    3" B/B...548.00

## BEECH

---

### Blue Beech (NATIVE) H 20-30 ft W 20-30 ft (Zone 3)

*Carpinus caroliniana*

Native variety also known as Ironwood or Musclewood. Smooth gray bark, yellow to orange fall foliage. Prefers shade and rich, moist soil.

#10 Container...155.50    #20 Container...246.00    1 ½" B/B...266.50

2" B/B...356.00

### Firespire Beech H 20 ft W 10 ft (Zone 4)

*Carpinus caroliniana* 'J.N. Upright'

Native variety with narrow, upright form. Interesting gray bark is almost muscular in appearance. Orange-red fall color and interesting hop-like fruit.

#10 Container...155.50    2" B/B...478.00

***Please allow a minimum of 4 business hours for processing of all orders.***

**Fire King Beech**

**H 25-30 ft W 20 ft (Zone 3)**

*Carpinus caroliniana 'J.N. Select'*

Hardy, fast grower with consistent red-orange fall color. Develops a dense, round crown as it matures. Its size makes it an excellent choice for limited spaces and is tolerant of full sun to full shade.

**#10 Container...159.50**

**Purple Fountain Beech**

**H 25 ft W 15 ft (Zone 4)**

*Fagus sylvatica "Purple Fountain"*

Cascading purple foliage and compact size make this an excellent specimen piece for smaller yards. Foliage is slow to emerge in the spring, but well worth the wait. Plant in a well-drained location in full sun to assure the best, rich colored foliage.

**#6 Container...174.00**

**Red Obelisk European Beech**

**H 40 ft W 8 ft (Zone 4)**

*Fagus sylvatica 'Red Obelisk'*

Slow-growing, columnar variety that makes a striking verticle accent in a small yard or tight location. It's deep purple, kinkled leaves add interest through the spring, summer and fall while its smooth, silver bark adds attractive winter interest. Does best in full sun.

**#6 Container...174.00**

**BIRCH**

**Cesky Gold® Golden Treasure Birch**

**H 3 ft W 3 ft (Zone 2)**

*Betula plettkei 'Golden Treasure'*

Orange-red spring foliage turns yellow as season progresses. Can be trimmed for low hedge. Prefers shade during the hottest part of the day.

**Clump: #25 Container...184.25**

**Dakota Pinnacle Birch**

**H 20-30 ft W 6-10 ft (Zone 3)**

*Betula platyphylla 'Fargo'*

Dense dark green foliage turns golden yellow in the fall. Smooth white bark exfoliates when mature. Tolerant of bronze birch borer and strong winds.

**#10 Container...153.50    #20 Container...226.50    #25 Container...256.50**

**2" B/B...325.00    2 ½" B/B...407.00**

**Emerald Flare Birch**

**H 30-40 ft W 12-20 ft (Zone 4)**

*Betula tianshanica 'Emerdak'*

Cold hardy variety that is more drought tolerant than what is typical for the species.

Narrow pyramidal form and attractive white exfoliating bark with slight gray and orange undertones.

**#25 Container...309.00**

***Please allow a minimum of 4 business hours for processing of all orders.***

**Fox Valley Birch**

**H 8-10 ft W 9-12 ft (Zone 4)**

*Betula nigra 'Little King'*

Dwarf form of River Birch and one of the most disease-free birch varieties available.

Excellent choice for rain gardens.

**#5 Container...68.25    5' B/B...277.00    6' B/B...305.00    7' B/B...349.00**

**NEW Heritage Birch**

**H 40 ft W 30 ft (Zone 4)**

*Betula nigra 'Heritage'*

Birch variety known for its peeling bark that exposes mottled patches of cream, orange, pink and tan. Other features include light green, glossy foliage and broad, pyramidal form and vibrant yellow fall color.

**Clump: #10 Container...127.00**

**Paper Birch**

**H 40 ft W 30 ft (Zone 2)**

## VINES

### CLEMATIS

Jackmanii Clematis	Purple	#1 Container...20.50
Sweet Autumn Clematis	White	#1 Container...20.50
Tangutica Clematis	Yellow	#1 Container...20.50

### HONEYSUCKLE

#### **Dromore Scarlet Honeysuckle** (Zone 4)

*Lonicera x brownii 'Dromore Scarlet'*

Bright, orange-scarlet tubular flowers from June to September. Aggressive and fast growing.

#1 Container...17.70

#### **Scentsation Honeysuckle** (Zone 4)

*Lonicera periclymenum*

Very showy vine with extremely fragrant yellow flowers from mid-spring thru late summer, followed by bright red berries. Not invasive like many honeysuckle varieties.

PW #3 Container...24.15

### HOPS

#### **Nugget Hops** (Zone 4)

Vigorous, lush green climber, typically grown on a fence or string trellis. Produces pale, greenish-yellow cones in late summer. Mulch in winter for protection.

#1 Container...10.40

### HYDRANGEA

#### **Climbing Hydrangea** (Zone 4)

*Hydrangenna anomala ssp petiolaris*

Lacy white blooms are displayed on this adaptable vine that is shade tolerant but also thrives in full sun. Make sure the supportive structure is substantial (works well growing on tree trunks or brick structures) as once established it will cover a very large area.

#2 Container...32.55

### IVY

#### **Boston Ivy** (Zone 4)

*Parthenocissus tricuspidata*

Dense, clinging vine with glossy green foliage in summer and orange-red hues in fall.

#1 Container...13.50      #2 Container...25.20

***Please allow a minimum of 4 business hours for processing of all orders.***

**Engelmann Ivy**

**(Zone 4)**

*Parthenocissus quinquefolia 'Engelmanni'*

Smaller leaves and less vigor than Boston Ivy. Clings better to masonry. Deep burgundy fall color. Small blue fruits attract birds. Xeriscape plant.

**#1 Container...13.50      #2 Container...25.20**

---

**TRUMPET VINE**

**Flamenco Trumpet Vine**

**(Zone 4)**

*Campsis radicans 'Flamenco'*

Rich, orange-red flowers bloom from mid to late summer. Perfect for covering arbors, fences and walls. Loved by hummingbirds!

**#1 Container...13.50**

---

**WISTERIA**

**Summer Cascade™ Wisteria**

**(Zone 4)**

*Wisteria macrostachya 'Betty Matthews' PPAF*

Blooms on new wood producing masses of deep blue-lavender flowers in June. Blooms fade, leaving seed pods for winter interest. More reliably hardy than other varieties.

**FE #3 Container...29.65**

***Please allow a minimum of 4 business hours for processing of all orders.***
